

SYN-CLEANER

compact and maneuverable
cleaner of surface debris.

SYN-Cleaner 1500

Technical specifications

Working with	1.5 m (59")
Weight	130 kg (287 lbs)
Capacity 2 debris holders (total)	100 l (1.06 ft ³)

The tow behind SYN-Cleaner is the ideal cleaning machine of surface debris from sports fields. Its rotating brush picks up the debris, throwing it into a closed hopper when cleaning natural turf, or on a sieve allowing infill, by shaking it, to drop back on the synthetic turf surface.

The SYN-Cleaner is ideal to quickly remove grass clippings immediately after mowing.
